Pell Cat®

Pell Cat is a natural healthy cat litter made from pine wood sawdust.

Wood sawdust: the raw material used for the elaboration of Pell Cat is provided from rapidly renewable sources to help the preservation of the environment.

Natural: since it's a plant-based product it does not cause health problems to the animal.

Biodegradable: easy clean-up and disposal in the trash even in your garden.

Deodorant action: it has a strong natural deodorant action reducing the unpleasant odor.

Multiple purpose: it can also be use on other small pets such as hamsters, guinea pigs, birds, rabbits, etc.

Instructions:

- Place about 13 inches of Pell Cat in the litter box.

- With a scoop remove the used material.

- Replace the same amount.

- Completely remove every 4 weeks.

Product from FSC certified FSC
implanted and reforested forests.

Din Plus quality pellet.
